INTRO

TOBACCO Theater: A mighty, industrial theater.

TOBACCO Theater is located in the heart of Amsterdam (Nes 75), at a walking distance from the Central Station. The former tobacco auction house is totally renovated into a modern, industrial theater and event location with lots of amazing details, a multifunctional location for any event. This city monument offers various rooms, divided over three floors, each with a unique character.

THE THEATER HALL

MAXIMUM 500 PEOPLE - SIZE: 200 M²

You won't expect this, walking through the Nes (the cultural high street of Amsterdam). An impressively high room built of steel and robust plaster.

Industrial, fresh, sturdy.

The attention to detail and history is not easily overlooked! Upon entering, the eye is drawn to the industrial bar and the steel balcony. Thanks to the historical shed roofing, the northern light enters the space beautifully. Of course automatic blackout curtains are available. The Theater Hall is fully outfitted with an unique lighting system, detailing the ceiling and rough walls beautifully.

The Theater Hall is the place for delicious theater-dinners, international conferences, grand product presentations, theatrical events and lovely performances.

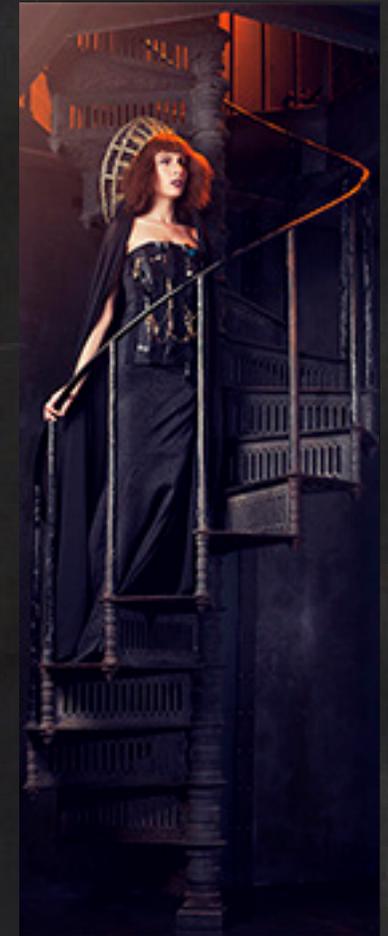

BALCONY & LODGE

MAXIMUM: 60 PEOPLE - SIZE: 45 M²

Above the robust bar is the steel Balcony, spanning the entire width of the hall. It is a whopping 13 meters long. The Balcony is connected to the Lodge.

With a direct view of the theatre it is a preferred spot for VIP's or to seat the director of a beautiful performance. And always overseen by the graffiti artwork "The Cuban Lady".

THE STUDIO

MAXIMUM: 100 PEOPLE - SIZE: 75 M²

The Studio is an impressively high room (9 meters), with a slanted glass roof and clean sleek walls. The Studio offers its own pantry, bathroom, sound system and beamer.

Here you will find various art pieces, for instance "Johan Cruijff", a painting by Ellen Davidzon, theatrical photo's by Richard Terborg and a light-art by the young artist Meeus van Dis.

The Studio is a preferred spot for receptions, meetings, photo-shoots and modern product presentations.

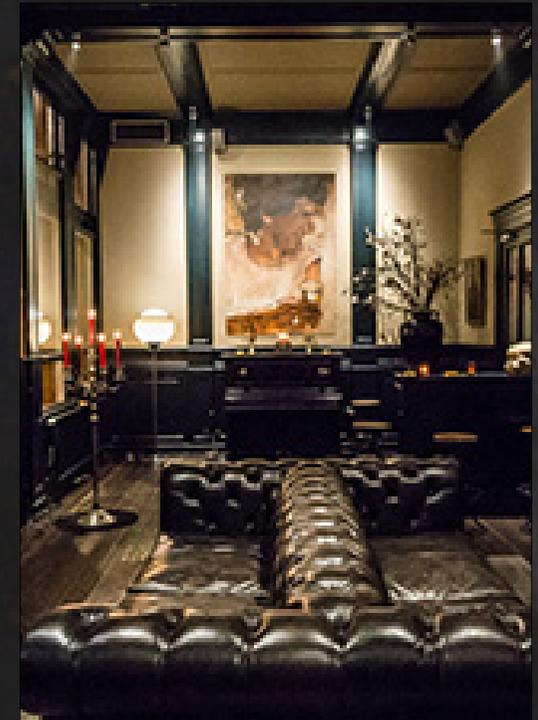

THE BANK'S SECRET

MAXIMUM: 50 PEOPLE - SIZE 40 M²

Why is this room called The Bank's Secret? Here you find is a bank vault, one like you haven't seen before! No one has succeeded in unlocking this big, sturdy vault since 1953.

The Bank's Secret is richly decorated in a golden Art Deco style, with a direct view over the cultural main street of Amsterdam. On the wall there's an artwork by Erwin Olaf; Separation 4. This Dutch royal photographer is the first ever photographer to exhibit in the Rijksmuseum Amsterdam.

The Bank's Secret is perfect for both private dinners and commercial meetings. Also it is an ideal break-out room for the adjoining Studio.

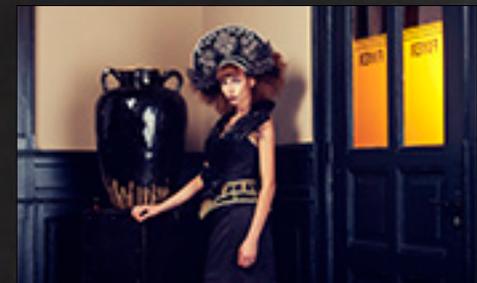

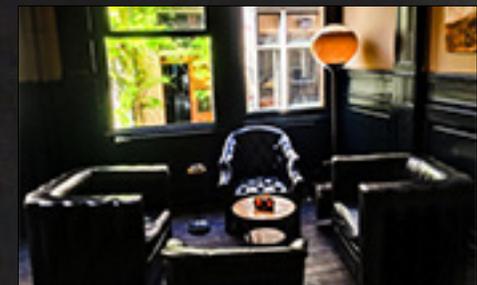

THE FOYER

MAXIMUM: 50 PEOPLE - SIZE 40 M²

Internationally renowned interior architect Wim van de Oude Wetering created the foyer. A cosy and calm place with a view over the Nes and adjoining the Theatre Hall.

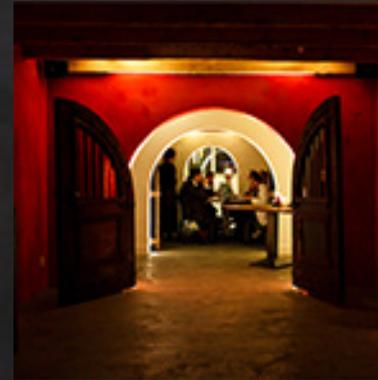

A leather Double-Chesterfield, an antique piano and an artwork by the painter Van Donkersloot. Together they give The Foyer the look and feel of an old English gentlemen's society. Naturally this spot allows the gentlemen to enjoy a smoke, of course the same goes for the ladies.

THE RED DANGER

MAXIMUM: 40 PEOPLE - SIZE 36 M²

The red, beating heart of TOBACCO Theater!
Located in the catacombs, this artistic place is buzzing with love and passion.
A red space with clay walls, designed by wall artist Paul Janssen. It's the natural connection between The Theater Hall above and the Mediterranean Wine Cellars and The Cookingstudio 1012.
A wooden mask from Africa depicting Frajurikka is keeping watch, making sure that everything is to your liking this evening.

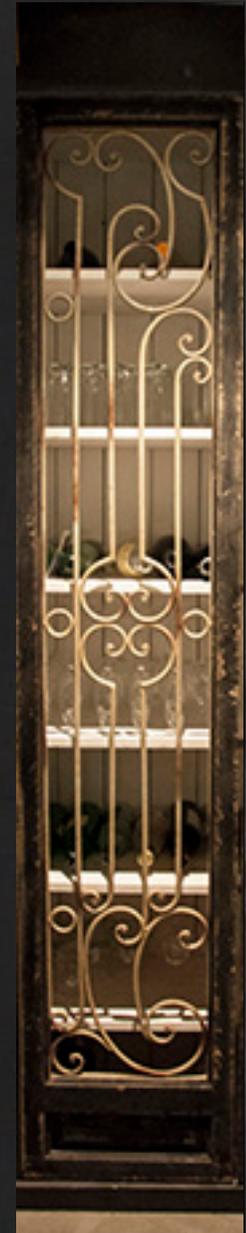

THE WINE CELLARS

MAXIMUM: 50 PEOPLE - SIZE: 50 m²

The authentic Wine Cellars are hidden in the catacombs of the theater. A classical scene of artistic arches and Mediterranean walls.

The wine cellars feature their own bar, sound system, and a cosy fireplace. The rural French atmosphere is enhanced by the long oak tables with small wooden seats. A great place for your more intimate dinners, meetings or for a reception before a performance in The Theatre Hall. This space is suitable for any event. Surprise us if you can?

THE KITCHEN

SIZE: 100 M²

TOBACCO Theater features a spacious and professional outfitted kitchen, including a scullery. The kitchen is designed in close collaboration with the chef and is thereby guaranteed to be very efficient. Due to the routing and facilities, it is possible to serve up to 700 people.

Naturally all renowned caterers are welcome in our kitchen. There is a 6-hub furnace, two big 10/1 gastronorm combined steamers by Zanussi, 5 mobile steel workspaces, a double fryers (8 liters each), two double regal carts 17/1, electric plate heater (capacity: 300 plates, 30 cm diameter) and various small utensils.

OTHER SPACES

Right next to the entrance is the reception desk. The place to be for tickets. But also the central place where guests can sign up for a conference or presentation. The reception is basically the "boiling room" for any event.

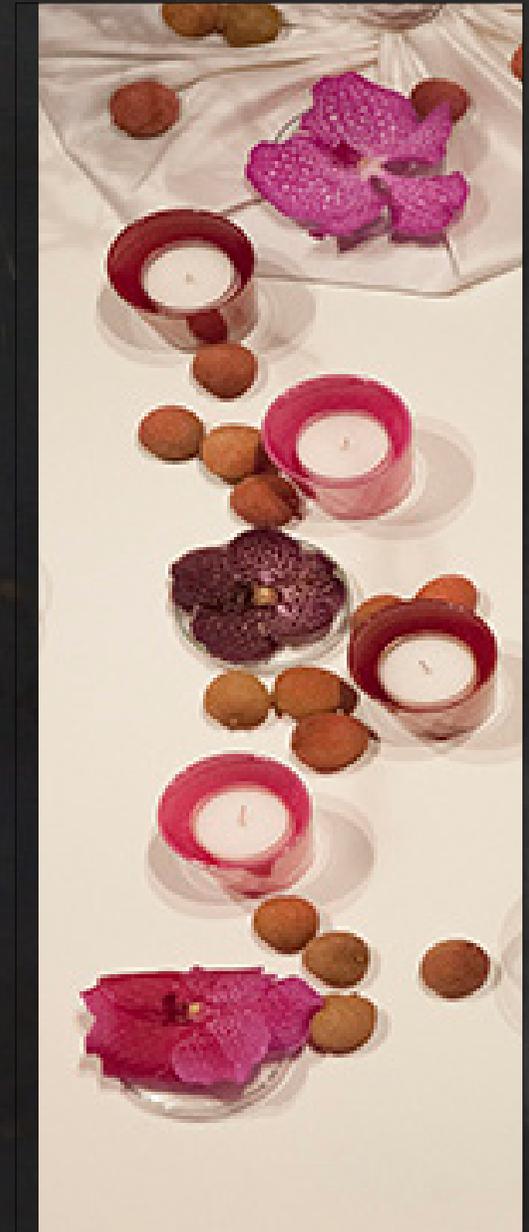

There are several toilets in TOBACCO Theater -with a total of 14 toilets- (obviously also a wheelchair accessible toilet). Even here in the smallest room in the house a fresh hint to the theater can be found.

For the performers we offer two spacious dressing rooms with showers and a toilet. The dressing rooms have a backstage route to the stage.

STYLING

For styling of your event we use our extensive experience in theater scenery and decoration of events. Our styling-team specializes in the decoration of commercial events and creative concepts, keeping in mind the clients wishes and always aware of the latest trends.

ENTERTAINMENT

TOBACCO has a rich experience with cultural acts and business entertainment. Precisely because of our background in the world of events, there is an extensive pool of creativity present. We're happy for you to take advantage of this and bring you in touch with the right artists and agencies in all the confidence.

CULINARY

From the start of his career, our Chef Dennis Huwaë was predominantly in charge of kitchens owning up to two Michelin stars, for instance two-starred restaurant &samhoud. 'From that point on he developed his feeling for gastronomy' utters GaultMilau, who declared him the most talented Chef of the year 2018. Besides being Patron-cuisinir of restaurant Daalder, Dennis has joined TOBACCO's kitchen crew and has therefore written a food book for the diverse set of events they organise.

To Huwaë, the creation of a dish is a search for the perfect combination of ingredients. Inspired by 'street food' all over the world, he creates his recipes by using classic techniques as a starting point in order to conjure up his own signature dish.

'Let nature run its course. Choose beautiful products and treat them with love and respect. Eventually all that matters is the love for your products and the time you invest in the creation of your dishes' – Dennis Huwaë

THEATER DINNERS

From the very beginning we organize exclusive theater dinners, produced in our own direction. We work with professionals from Palazzo and Cirque du Soleil amongst others. All in close consultation with Dennis Huwaë so that the courses of the dinner connect the evening perfectly. We can proudly say that we have come to two great evenings: full of theater, live music, magic, humour and culinary delights.

Putting on the Ritz

We'll take you back to the posh times of Hotel The Ritz in The Roaring Twenties. Acrobatics, singing, illusionism, trapeze, tissue acts and live music. The theater section is led by our director Lee Hayes, an internationally acclaimed director.

"Welcome to the Ritz."

La Folie

The Theater Hall is transformed into a Moulin Rouge with many candles on the tables and rich chandeliers hanging from the ceiling. Enjoy this "Soirée Magnifique" to the fullest as a real Parisian "bon vivant". Fantastic live music and variety shows in which you yourself regularly play a role on stage. Your hidden talents will surely emerge.

"Bienvenue Café Variety: La Folie."

Of course we can also produce a show, completely customized to your needs. We'd love to!

CULTURAL EVENTS

TOBACCO Theater might be the weirdest theater of The Netherlands. A place where culture and commerce strengthen each other (C2C). Without culture there is no commerce and without commerce no culture.

With our non-profit foundation we give young artists and freebooters a chance to show their art to the greater audience. The concept is fully in the hands of the artists, people that have a place in our heart.

We receive no municipal grants and we don't make up the calendar a year in advance. We organize the shows, when we feel that there is a need of the audience. Or if there are concepts in our path, which we believe they are so unique that we like to invest. We choose to always be up to date and surprising.

CONFERENCES & MEETINGS

TOBACCO Theater is an industrial location full of history, inspiration and culture. A place where commerce and business events effortlessly find their way.

Conference

Everything is in place to organize a successful (international) conference or symposium. A spacious, high-ceilinged room with a fantastic northern lights and many break-out rooms. Modern facilities, a unique illumination (or darkening), a flat floor and the opportunity for free setups. And perhaps most importantly: our highly acclaimed, attentive and helpful staff. These are our unique ingredients to get your message to your audience, with the right impact. Welkom, herzlich willkommen, bienvenido, welcome honored guests!

Meeting

In our multi-purpose building, there are many options for a successful meeting. We have several break-out rooms, each with a unique character. And all modern facilities are available (read more on page Technics). From an intimate to a large-scale meeting, from 2 to 600 people. Our rooms are always for rent exclusively, separately from each other. With us you have the choice of different meeting packages. If required, we also take care of your breakfast, lunch, dinner or drinks after. We will gladly inform you about all of this in person.

TOBACCO Theater: Guarantee for an exclusive meeting full of inspiration and a free spirit!

LIGHT & SOUND

Lighting and sound are essential for setting up the desired atmosphere. We work together with Smits Light & Sound in Hilversum.

A professional lighting is obviously a standard feature in TOBACCO Theater and it can be expanded to suit your needs. The same naturally applies to the sound system.

For more information on the page Technics.

HISTORY

Nes 75-87 has a rich history of residents and businesses.

It all started in 1342, when the Nes became a part of Amsterdam. In the beginning of the 15th century a cluster of cloisters emerged behind the Rokin. Names of side streets of the Nes still remind us of these days, for example "Gebed zonder End" meaning Prayer with no End.

In the 17th and 18th centuries, the Nes developed into a lively center of shops and businesses, where signs gave color and life to the houses. Where stores are, cafes also arise. And so the Nes developed to a thriving street in the 19th century. The Nes was the place to be.

Around 1900, the Nes fell into disrepair and was shunned by the greater public. Where once entertainment flourished, now tobacco firms made their trade. The street made a deserted impression in the evening. The current TOBACCO Theater served as a tobacco auction building at this time. The building is pointed towards the north exactly, giving tobacco buyers the purest light. So that the tobacco leaves were properly assessed on

their quality and traded fairly.

Later on, the TOBACCO Theater was used as an auction house for Sotheby - Mak van Waay.

In the sixties the theater life revived on the Nes. Tobacco Auction houses were converted into theaters like the Engelenbak, Het Vlaams Cultureel centrum: De Brakke Grond and Comedy Theater. In the building Nes 75-87 settled the Cosmic Theater.

PromoPodium

Since 2007 Erik van Wilsum, D'Erikteur of PromoPodium BV, is the proud owner of Nes 75-87. The building is proudly reopened in October 2011 after a complete renovation. Industrial and characteristic elements of the historic building are preserved and modern facilities added.

The Nes is alive and kicking once again, and last but not least including a special theater where culture and commerce have found each other.
